

The Holistic Church of Natural Beings

Balance, Equity, Independence, Nature, Growth, Sovereignty

“Living in Eternal Holistic Balance with Nature”

To Whom it May Concern,

Please accept this letter as confirmation of religious exemption from vaccination and mask-wearing, which will require an explanation, given that our beliefs are not conventional.

Devotees of the Holistic Church of Natural Beings have a firm belief in, and dedication to, the biological laws of nature (also known as German New Medicine). Devotees believe that health and disease come from within the body and Viruses floating around in the air that can infect us and make us sick do not exist.

Devotees of the Holistic Church firmly believe that illnesses are caused by us receiving a biological shock to the system, and once this occurs an internal program is then run in order for the body to survive and to repair itself, with the symptoms of illness that we may experience being a part of the bodies healing phase.

In addition, the Holistic Church of Natural Beings condemns anything that is anti-nature, that is, anything that interferes with God's creation and Universal Law. Therefore our Devotees are forbidden from receiving vaccination due to the many ways in which they are anti-nature, as follows:

- They are an invasive interference with God's creation of the human body, its natural mechanisms and defences.
- Vaccine ingredients are derived from mixed species and unnatural chemicals many of which are Genetically Modified
- Vaccines pose a threat to the ecosystem and natural balance of life

With relation to the wearing of masks:

- Masks inhibit the breathing of fresh air as intended by nature
- Masks inhibit the expulsion of waste products as the body is naturally designed to do
- Masks prevent human connection and the ability to communicate intention through facial expression

The Holistic Church of Natural Beings condemns use of violence, and has a maxim to Do No Harm. Therefore our Devotees are forbidden from receiving vaccination due to the many ways in which they cause harm, as follows:

- Vaccinations are tested on animals
- Vaccine ingredients contain DNA from various species such as insect, monkey and chicken
- Vaccines rely upon the abortion industry to supply foetal cells, abortion is forbidden in the Church of Natural Being
- Vaccines are an invasive treatment that cause harm to the body's natural defences
- Vaccines are well known to cause injury and damage to the recipient
- the Vaccine industry and its by-products cause harm to the environment

In relation to mask-wearing:

- Masks are harmful to the environment both in their production and disposal
- Masks are proved harmful to the wearer due to the inhalation of human waste that the mask has captured
- Masks may cause distress and trauma to the wearer

Furthermore, Devotees of the Holistic Church of Natural Beings see no need for vaccinations or masks as we do not believe in deadly diseases, phantom viruses or having an immune system which needs to be enhanced by putting chemicals into our bodies.

Yours faithfully,

Devotee of the Holistic Church of Natural Beings
